

New York State Unified Solar Permit

Expedited Solar Permit Process for Small-Scale Photovoltaic Systems

Requirements for Application Submittal - STEP 1

For use in all New York State counties with the exception of Nassau County and Suffolk County.

The expedited solar permitting process uses a unified permit across municipalities in New York State.

A combined building and electrical permit for a grid-tied photovoltaic (PV) system will be issued pending proper completion of forms, submission of approved plans and approval by municipality. All applicants must submit:

- 1. Unified Solar Permit for Small-Scale
 Photovoltaic Systems Eligibility Checklist STEP 2
- 2. One (1) set of plans (number may vary by municipality) that include:
- Site Plan showing location of major components of solar system and other equipment on roof or legal accessory structure. This plan should represent relative location of components at site, including, but not limited to, location of array, existing electrical service location, utility meter, inverter location, system orientation and tilt angle. This plan should show access and pathways that are compliant with New York State Fire Code, if applicable.
- One-Line or 3-Line Electrical Diagram. The electrical diagram required by NYSERDA for an incentive application and/or utility for an interconnection agreement can be used here.
- Specification Sheets for all manufactured components. If these sheets are available electronically, a web address will be accepted in place of an attachment, at the discretion of the municipality.
- All diagrams and plans must include the following: (a) Project address, section, block and lot number of the property; (b) Owner's name, address and phone number; (c) Name, address and phone number of the person preparing the plans; and (d) System capacity in kW-DC.
- 3. Unified Solar Permit for Small-Scale Photovoltaic Systems Application STEP 3
- 4. Permit Fee Amount

Permit Review and Inspection Timeline

Permit determinations will be issued within 14 days upon reciept of complete and accurate applications. The municipality will provide feedback within 7 days of receiving incomplete or inaccurate applications. If an inspection is required, a single inspection should be sufficient and will be provided within 7 days of inspection request.

Eligibility Checklist - STEP 2

| io determin | e it you are eligible for the expedited permittil | ng process, answer the questions below. | |
|---|---|---|--|
| ☐ Yes ☐ No | 1. Solar installation has a rated capacity of 12 kW o | r less. | |
| ☐ Yes ☐ No | 2. Solar installation is not subject to review by an Ar | chitectural or Historical Review Board. | |
| ☐ Yes ☐ No | 3. Solar installation does not need a zoning variance | э. | |
| ☐ Yes ☐ No | Solar installation is to be mounted on a permitted structure. If on a legal accessory structure, a diag structure is attached. | | |
| ☐ Yes ☐ No | 5. Solar installation is compliant with all applicable e | electrical and building codes. | |
| ☐ Yes ☐ No | 6. Solar installation is compliant with New York State | e Fire Code. | |
| ☐ Yes ☐ No | 7. The Solar Installation Contractor complies with all and the state. [can be customized for jurisdictions | | |
| ☐ Yes ☐ No | 8. The proposed equipment is permitted by code ar | nd equipment meets all relevant certification standards. | |
| 🔲 Yes 🔲 No | 9. The PV system and all components will be installed | ed per the manufacturer's specifications. | |
| 🔲 Yes 🔲 No | 10. The project will comply with adopted National Electrical Code® requirements. | | |
| ☐ Yes ☐ No | 11. The roof has no more than a single layer of roof covering (in addition to the solar equipment). | | |
| ☐ Yes ☐ No | 12. The system is to be mounted parallel to the roof surface, or tilted with no more than an 18 inch gap between the module frame and the roof surface. | | |
| ☐ Yes ☐ No | 13. The system will have a distributed weight of less less than 45 pounds per attachment point to roo | | |
| and must go t Questions 11- existing struct to all of the ab | ed "No" to any of Questions 1-10, you are not eligible through the standard permitting process dictated by 1-13, you must provide a letter from a Professional Engage can support the additional weight and wind loads ove questions, please sign below to affirm that all arents to participate in this expedited process. | the municipality.
